Protect Yourself from the Most Damaging Types of Theft with CardValet®

The protection of member assets is one of RTP Credit Union's core values. As the holiday season approaches, we encourage cardholder members to sign up for CardValet®. CardValet® is a mobile card management and fraud mitigation tool that gives cardholders the power to control when, where, and how their cards are used. Once CardValet® is set up, members can turn their cards "off" and "on" as they're used, establish spending limits, and decline transaction amounts that exceed a predefined threshold. Users will also have the ability to restrict card usage based on location, set alerts for when a transaction takes place, and prevent fraudulent online purchases.

If you're a cardholder who likes to actively manage your financial cards, CardValet® is ideal for you. Not only is the app convenient and user-friendly, it also aides in RTP CU's efforts to prevent fraud and identity theft for our cardholders.

CardValet® also serves as a wonderful tool for parents with its ability to link additional accounts to monitor dependents' spending. The app enables parents to set spending limits and restrict merchant types. Along with personal use, CardValet® is perfect for small businesses. All transactions can be monitored and controlled for specific merchant categories, including travel, dining, and entertainment. CardValet® also allows businesses to deny or report merchant types that are not business-related.

CardValet® is free to all RTP CU cardholders. Simply download the app to your smartphone then customize your usage settings and alert preferences to get started.

Visit www.rtpfcu.org or call us at (919) 941-5700 to learn more about CardValet®.

**Please note that when using CardValet® app, you may incur mobile internet/data charges from your carrier/service plan. Please check with your carrier and service plan on specific charges.*
